Ellen Mecray, Eastern Region Climate Services Director

Background

ClimAID Report, 2011

Projected climate change

Impacts by sector:

- Agriculture
- Coastal Zones
- Ecosystems
- Energy
- Public Health
- Telecommunications
- Transportation
- Water Resources
- (Buildings)

Responses:

- Adaptation
- (Mitigation)

Background

Where can people go to find reliable applied science data and information on climate change in New York State?

New York Climate Change Science Clearinghouse

Audience:

1. Decision and policy makers, planners, practitioners
2. Researchers
3. General public
